

STEICO *floc*

Cellulose air injected insulation

INSULATE THE NATURAL WAY

Novora, in partnership with Steico UK, are now able to offer nationwide installation of Steico Floc (cellulose) air injected insulation for closed panel wall and roof panel systems. Suitable for many on site timber frame applications and prefabricated wall and roof cassettes.

**Excellent insulation
for both summer
and winter protection**

**Water vapour
open for a healthy
internal climate**

**High heat
storage capacity**

**Made from recycled
paper**

**On-site or
factory installation**

**Certified
workmanship from
trained installers**
